

## **Position: Great Basin Incident Commander**

### **KNOWLEDGE, SKILLS, AND ABILITIES:**

- KSA 1: Describe your knowledge of large wildland fire incident management principles and practices; your experience in analyzing the complexities of emerging incidents; and your ability to interpret laws, procedures, federal fire policy, and regulatory standards related to wildland fire situations.
- KSA 2: Describe your experience and ability to plan, coordinate, and professionally lead and manage a diverse team during complex incident management assignments.
- KSA 3: Describe your skills in effective communication when managing a wide variety of relationships and interactions with agency administrators, stakeholders, partners, cooperators, coordination centers and entities such as Area Command and other incident management teams.
- KSA 4: Explain your commitment to succession planning to ensure the perpetuation of GB IMT's into the future and your ability to provide an inclusive, highly reliable incident management team that respects diversity of thought and perspective.
- KSA 5: What does managing RISK in all aspects of incident management mean for you and how do you propose to manage and share risk with an Agency Administrator on your IMT?
